# Home, Ballinco's Narration

Ballinco is a furniture design company that blends tradition with modern elegance, creating timeless pieces for contemporary living. With a focus on craftsmanship and innovative design, Ballinco transforms spaces into works of art. Each piece tells a story, combining functionality with aesthetic appeal.

# Kitchen Solution Design

# Green ▮ Typhoon Granite

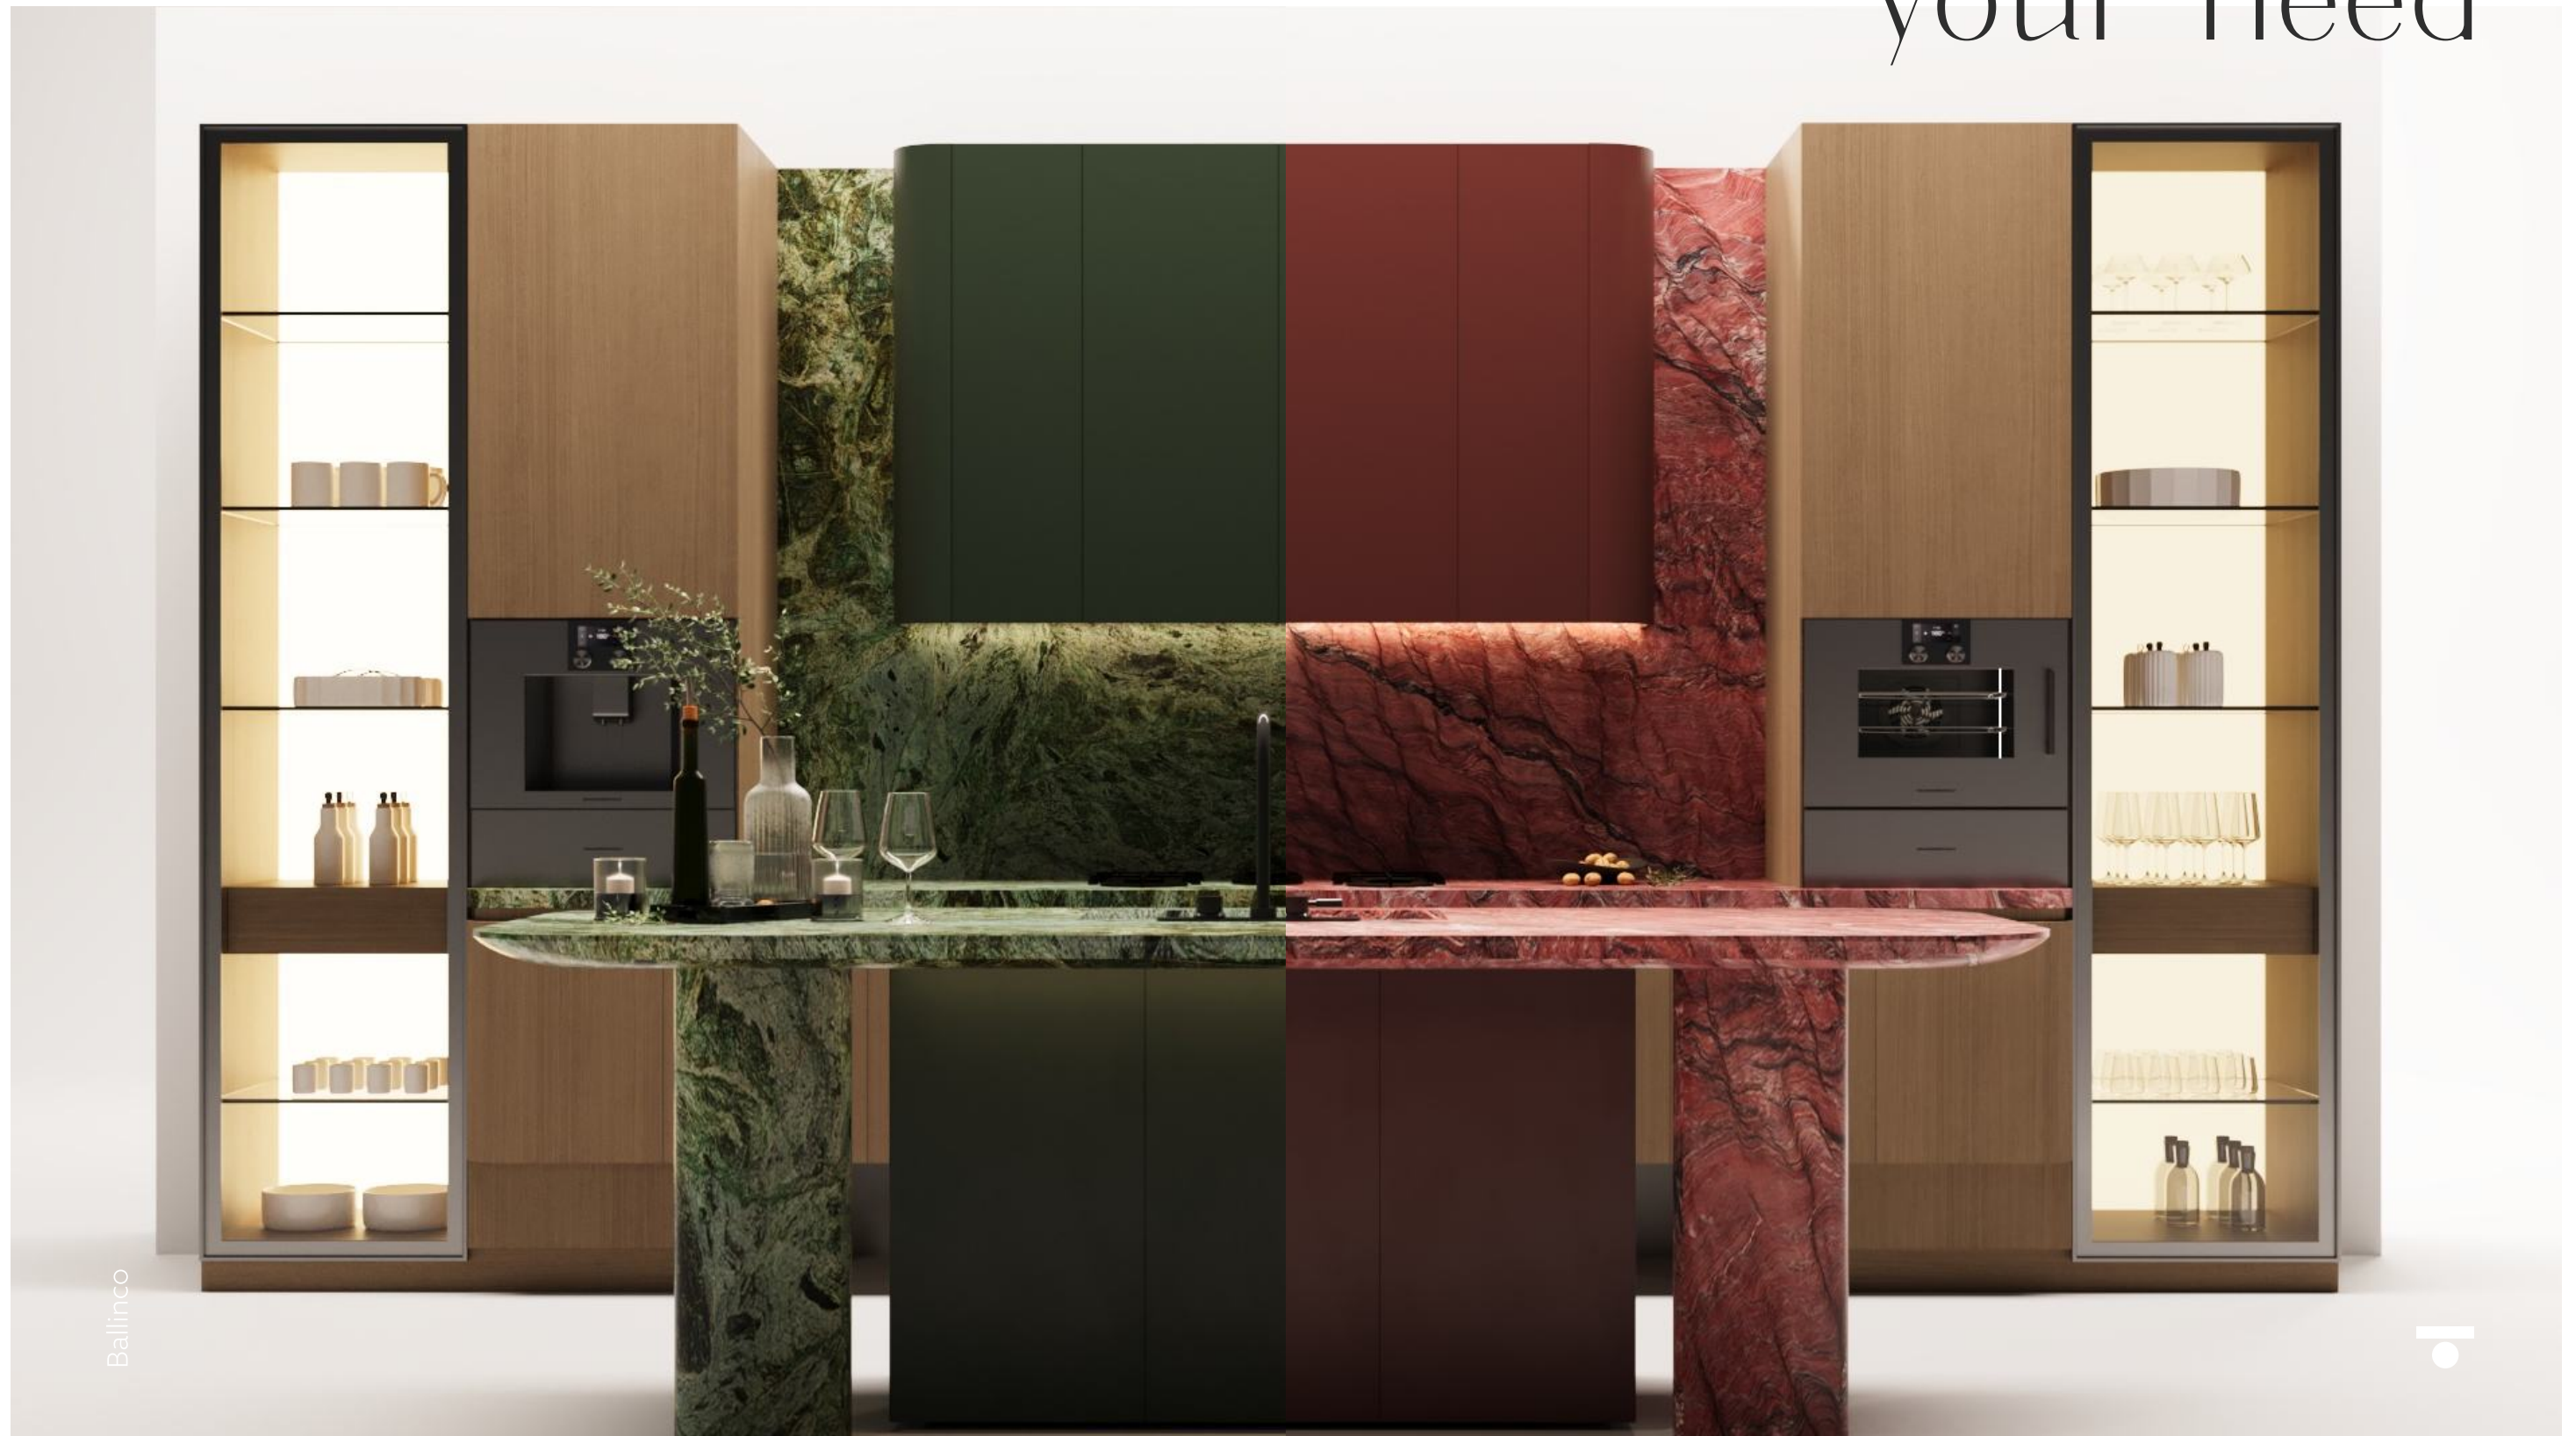

Luxury Kitchen Cabinet  
by Ballinco Studio

Green Typhoon  
Granite

Crafted from premium plywood, this cabinet features elegant arched doors and is adorned with luxurious green stone, creating a harmonious blend of natural materials and sophisticated design.

Customize  
your need

Ballinco

Material Palette

The customization of natural wood cabinets allows for a wide range of materials, colors, and finishes to match different styles. Wood species like oak, walnut, and maple offer unique textures, while stains and paints enhance their aesthetic appeal. Matte, satin, or glossy finishes provide varying levels of sheen for a modern or classic look. Adding metal accents, glass panels, or mixed wood tones further personalizes the design.

and Colors

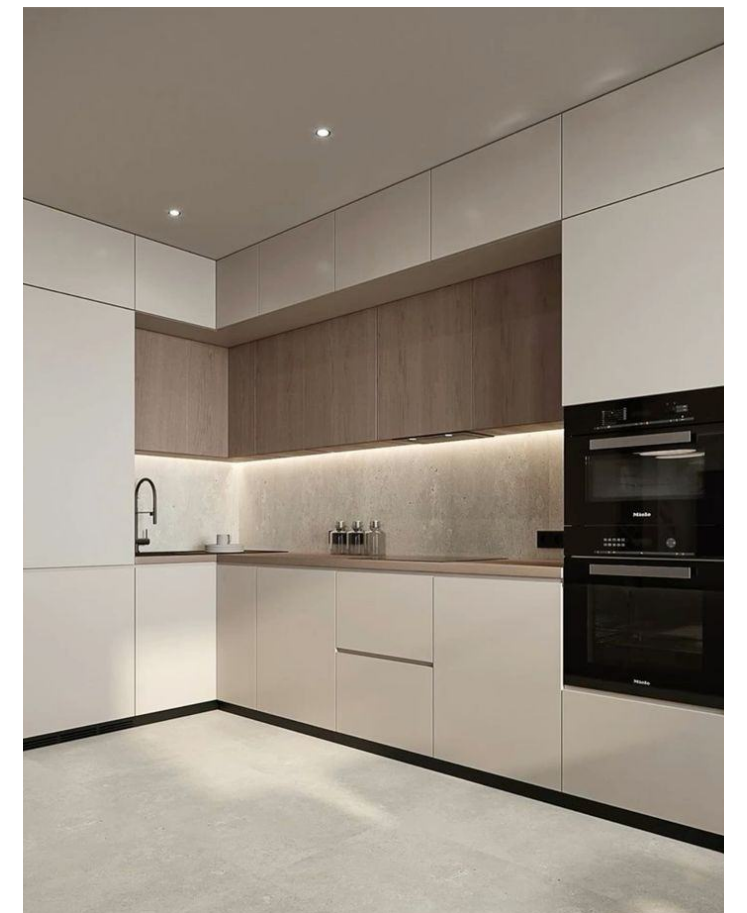

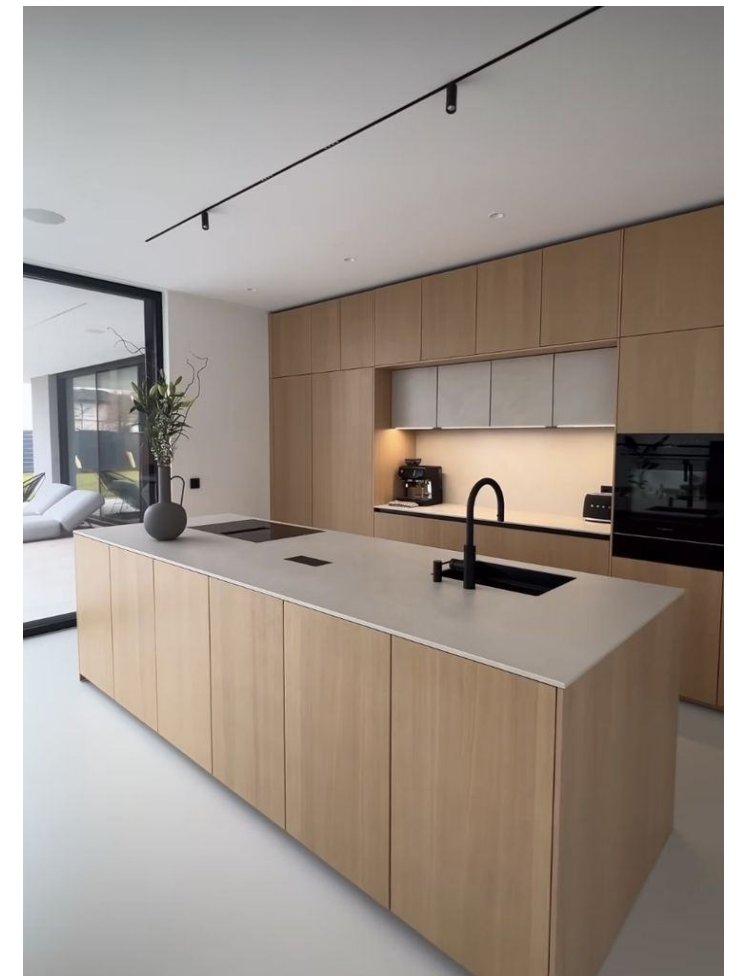

## Bent Plywood

Curved plywood elements soften the kitchen's look, adding a sense of flow and sophistication. Whether through rounded edges, arched cabinet doors, or fluid open shelving, these forms enhance both functionality and visual appeal.

## Detail Design

Plywood kitchens embrace a warm, natural aesthetic while offering durability and flexibility in design. With advanced bending techniques, plywood can form elegant curves, creating seamless, organic shapes for cabinets, islands, and shelving.

## Unique aesthetics

Plywood is a versatile and budget-friendly material for closet and walk-in closet designs, providing both durability and aesthetic appeal. It can be finished with laminates, veneers, or paint to match different interior styles, making it a popular choice for modern and minimalist spaces. Additionally, plywood's strength allows for custom-built shelving, drawers, and compartments that optimize storage and organization.

Unique aesthetics

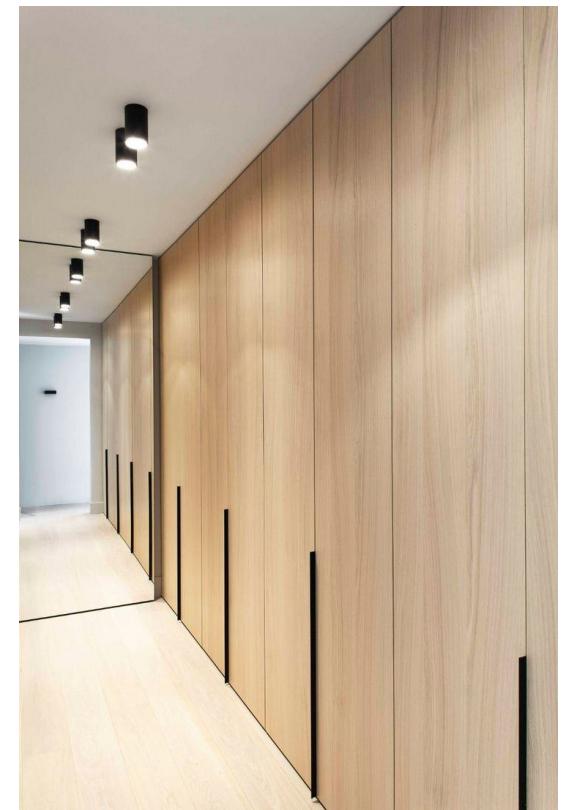

A well-designed walk-in closet made from plywood enhances both functionality and visual appeal, creating a space that feels organized and luxurious. By incorporating adjustable shelves, hanging rods, and built-in compartments, the design can be tailored to accommodate various wardrobe needs. Soft-close hinges, integrated lighting, and sliding or hinged doors can further elevate the user experience, adding convenience and elegance.
